Emmanuel Monod (John),

Vice-director of SUIBE key lab "data science"

Emmanuel Monod (John), is professor at SUIBE School of management. He is also vice-director of the key lab "data science and management decision". He was previously professor at Shanghai Jiao Tong University, Antai College of Economics and Management.

His publications focus on research methods, change management, business transformation, customer relationship management, e-commerce, e-tourism, e-culture, social media, business process management and virtual reality.

At the SUIBE key lab "data science", he is in charge of 2 research seminars: one on "case studies methodology" and the other one "working papers" where all SUIBE Faculty is invited to come every Friday afternoon! Bring your research projects

John is now at the Academy of Management international relations officer of the Management Education division and board member of both Practice Theme Committee and Teaching Theme Committee. He is also board member of the Association for Information Systems AIS SIG Philosophy and AIS SIG e-culture. In 2016, he was track chair at the Americas Conference in Information systems in California, and session chair at the conference of the Academy of Management in California, USA, and will be track chair for AMCIS 2017, Boston, USA.

He was vice-president of the Association for Information System and track chair (or professional development workshop chair) for ICIS, ECIS, AMCIS and Academy of Management (Boston 2012, Orlando 2013, Philadelphia 2014, Vancouver 2015 and Los Angeles 2016).

He holds a PhD from Paris Tech - Telecom Paris (ENST Paris) *(Paris Tech - Telecom is member of ParisTech with Ecole Polytechnique, which is ARWU National rank 5-6, World rank 101-150)*. He was previously professor at Paris Dauphine University (France) and the University of Nantes (France) and visiting professor at Georgia State University (Atlanta, USA)

Before joining the academy, John worked during 10 years at IBM France, for the French Ministry of Finance at France Telecom (Orange) and IBM USA in New York

He is currently editorial board member of *Information Systems Journal* (ISJ), *Database for Advances in Information Systems* and *Information Technology and People*. He was previously associate editor for *Information Systems Research* (ISR), *Communication of the AIS* (CAIS) and *Journal of the AIS* (JAIS). He published in *Information and Organization, Information Systems Journal (ISJ), European Journal of Management (EJM), European Journal of Information Systems (EJIS), Communications of the AIS (CAIS)* and 3 French journals recognized by CNRS (French equivalent to NSF): *Systèmes d'Information et Management, Annales des Telecommunications* and *Réseaux*. He was guest editor of a special issue of ISJ *(Information Systems Journal)* and guest associate editor for MISQ *(Management Information Systems Quarterly)*.
